DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-6 are rejected under 35 U.S.C. 102(e) as being anticipated by Hirai et al (US Patent 6,308,894).

Hirai et al disclose, in figures 1, 5, and 6, an IC chip comprising a planar meander antenna 20, wherein the antenna are surrounded by a plurality of resin moldings (5A,5B).

Allowable Subject Matter

3. Claims 7-12, and 14-30 are allowed.

Art Unit: 2821

4. Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The patents to Evans et al, Howng et al, Dakeya et al, Thevenot et al, Haussler et al, Mandai et al, Asakura et al, Kanba et al, Asakura et al, and Tsuru et al are cited as of interest showing the antenna similar to that disclosed.
